- SQL, OOPS, Computer Networks.

- GSAP, Tailwind, Bootstrap, Responsive Web Design

EDUCATION

RGPV University

B.Tech in CSE

Current CGPA:- 8.55

2020-2024

EXPERIENCE

SocialSparrow (Full-Stack-React-App)

SocialSparrow is a dynamic networking platform crafted with React, Redux, Tailwind, and Appwrite. Leveraging React Router and React Hook Form, it boasts seamless navigation and user interaction. With Redux and Appwrite managing data flow, it delivers robust functionalities. SocialSparrow's responsive design ensures accessibility across devices, while its visually captivating UI enhances user engagement, making it a standout project in the realm of social networking platforms.

Bazaarify (React App)

I have used React JS, andTailwind css to create amazing UI for the App. Also, the data-flow is managed by using a mixture of Context API and Redux-Toolkit. It has Registration/Login feature with validation checks as well. After Login user can access content and his/her profile.
